ONLINE STOREFRONT REQUEST FORM

TYPES OF STOREFRONTS

We have three types of store set-ups to choose from to best fit your needs. Check out the details of each below and select which option would be well suited for your event, team or club!

 365 STOREFRONT

- The store would stay open all year long! We would manage the back end with frequent maintenance and updated inventory as needed. There isn't required continual conversation between CRS and the main contact, but you are welcome to reach out at any point for store updates. This option also gives customers the chance to shop the storefront whenever they would like! *This store type does not allow for compensation.*

 WINDOW STOREFRONT

- Are you looking to make some profit from the store? This option allows the storefront to be open for a limited time, approximately four to six weeks, and gives the store contact the choice to add compensation. This compensation is a set dollar amount that is added to the available items on the storefront. The store is allowed two of these windows within a calendar year.

 LAUNCH STOREFRONT

- Do you want a store that stays open all year long AND earns commission? This storefront combines the best parts of the other storefront options! This store type would be open all the time like a 365 store but to capitalize on initial interest, you can earn compensation for the first four weeks of operation. Following that launch period, the compensation would be removed, you'll receive the earned amount and the store remain live! *This launch period is a one time deal and cannot be requested again.*
